

Pet Protection Program

Our complimentary **WorldCare Pet Protection Program** is a unique plan which provides you with peace of mind during the transport of your pet with the following select benefits at no cost to you.

Veterinary Fees - up to USD \$2,500.00*

For emergency treatment for illness or injury should your pet require treatment while in transit. (Excludes any pre-existing health conditions which you must advise us about, prior to your pet's travel date).

Emergency Repatriation and Quarantine Cover - up to USD \$1,000.00*

In the event of your trip being cancelled due to a family emergency (death or serious illness) while your pet is in transit, WorldCare will cover the return trip expense of your pet and any quarantine and/or boarding fees that may be applicable.

Replacement Value - up to USD \$2,500.00*

Provided in the case of the pet's death by accident, illness or injury sustained while the pet is in transit. This is also extended to cover replacement value in the case of a pet being stolen or lost during transit.

While it is extremely unlikely that the WorldCare Pet Protection Program may ever be required, we believe it provides the reassurance to our loyal customers that the very best care will be provided to their beloved pets and that they are protected financially with liability minimized.

* Bulldogs, Pugs and any other brachycephalic breeds will not be covered under this program, but insurance is obtainable upon request at a charge.
